Additional minutia to forget immediately!

#1 – Remember to bring back beer when you travel abroad! Forget the toxic liquor with the worm in the bottom! Bring Back Beer!

#2 – Open the check if you see the pack moving on but the check hasn't been opened!

#3 – Remember to call "Checking One" and "Checking Two" when checking BECAUSE ... "On One" sounds a lot like "ON! ON!" from far away. Make sense?

#4 – Drink what you pay for. No one wants to be the beer police.

Comments: This will be a standard A-to-A run to celebrate GNS' birthday. The trail will suit runners and walkers alike, but unfortunately is not stroller-friendly in a couple of sections. As befits a birthday run, there will be one or more drink stops during the run and additional brews available after the circle and standard allowances. In light of this, those who were intending to drive might like to change their mind.... The hares will provide summery food, hopefully the RA will provide weather to match.

JULY 2010 Oslo HHH Recap

July 2010 was another exceptional month in the history of Oslo HHH !!

OH3 1094 (03.07) Hares: *Yang & Droggist*. July couldn't have had a better start than with the 8th Bottomfjord Hash Weekend! Record attendance of almost 40 included *Junior Turd* from Stockholm, returnees: *Methane Man & Scavenger*, *The Envoy* with kids, and John Jarvis with new hasher Richard, and *Midnight Sun*'s cousin Karen & her daughter Astrid! There were so many tents... the yard looked like a refugee camp! *Yang* had explored new ground and gave the pack a great trail that kept everyone together while the FRBs were kept guessing throughout! When the runner's joined the walkers, they had already drunk most of the beer stop libation! Justice at last! Everyone thoroughly enjoyed *Yang & Droggist*'s fantastic hytte setting, the great OH3 1094 hash, lots of swimming, watching Spain spank Germany, having kids in the circle, BBQing, drinking until late, and sharing a wonderful terrace breakfast on Sunday! What a great weekend! Thanks again *Yang & Droggist*!! *On! On!*

"England" related OH3 hashers stop for a quick pic!

OH3 1095 (12.07) Hares: *Double Dick & Pucko*. By all accounts, 1095 enjoyed fine weather, another great seaside trail for the 22 faithful, and grilled hotdogs afterwards! The circle was noteworthy! Borneo Interhashed Grand Master *The Vicar* had just returned refreshed and ready for some serious hash naming business: Lisa was named "*Pointer Sister*" and Dorita became "*Tickless*" making OH3 1095 even more historic for these two! *On! On!*

More OH3 1094 pics!

With perfect weather, swimming & diving were a bonus at OH3 1094!

Happy hosts and hares, *Yang & Droggist*! Thanks for OH3 1094!

The On-After BBQ and evening was thoroughly enjoyed by all!

OH3 1096 (19.07) Hares: *Aahlouetta & YouHoo*. Also back from the Borneo Interhash, these hares hosted at Lake Sems in Asker, a new venue for most of the 24 faithful - included visiting *Anything Will Do*, returning *Something Else*, *Big Shaker's* visiting hashing buddy: *Bunny*, and new hashers Pierre and Man! *Aahlouetta* hared the run but *YouHoo* had to shepherd the pack on the day without knowing the exact trail while *Aahlouetta* chatted with the walkers! It all worked out and the trail proved to be great with challenging checks and lots of forested dirt trails! Eventually we ran around the lake and some took a dip afterwards before the fun circle. The On-After was a lakeside feast of sandwich makings plus fruit! It's all good! **On! On!**

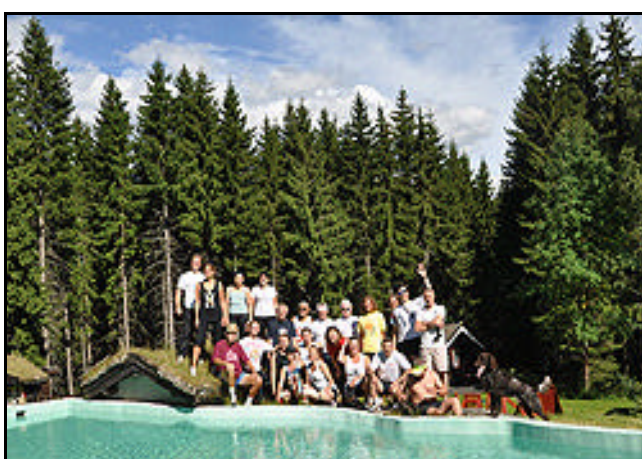

OH3 1097 (24.07) Hares: *Zoom In & Dry Run*. As the youngest OH3 weekend camping and hashing venue, Sveum continues to grow in popularity with 20+ joining for OH3 1097! It is a special paradise that a dedicated few have endeavored to improve in recent years by rebuilding the main house porch and finishing the OH3-built sauna, which functioned perfectly! Owner Pål enjoyed hosting the OH3 kennel and shared in the fun throughout the weekend!

OH3 1097 attracted record attendance = lots of tenting!!

The pool setting was VERY enjoyable before the run & post-sauna!

Many enjoyed the pool and all loved the quiet setting, shared BBQ meals, and perfect sunny weather! *Dry Run & Zoom-In* gave the pack a great Sveum trail complete with false drink stop and a real drink stop, which *Simply Red* and Rob completely missed – although Rob came back eventually! Once all were in, sun-burned *Daddy Long Legs* led the 1097 circle, which welcomed all the Sveum virgins and OH3 virgins Marianne and Louise, punished the usual suspects, and hashnamed Richard: “*Quick Dick*”, Rob: “*Deep Throat*” and *Midnight Sun*’s killer dog, Zacke: “*Hare Killer*”!!! *DLL* also did a controversial renaming of *Scary Pussy* to *Special Price* before everyone moved on to the more serious business of grilling, drinking, sweating in the sauna, taking a cooling dip in the pool, and thoroughly enjoying the Sveum weekend! Thanks again Pål for hosting and *DR & ZI* for haring! *Anyone interested in another Sveum mushroom weekend? On! On!*

DLL lead the circle and rewarded the "dedicated few" & Sveum owner!

Richard was hashnamed "*Quick Dick*" but Laura swore, "It's not true!"

OH3 1098 (26.07) Hares: *Dr. Doolittle & Spikes*. Timing is a curious element in life and one of the great mysteries the OnSec is perplexed by is how he manages to attend most OH3 hashes but hasn't managed to join any of this duo's hashes the last two years! *Dr. Doolittle & Spikes* are true pillars of the OH3, represent the best of OH3 traditions with good will to all, and have nearly 1000 hashes between them! By all accounts, 1098 enjoyed good weather, good attendance, and a fine trail despite having to detour during part of the route! It's all good! Hope to join next time! *And Oslo HHH hashing for July 2010 is OH3 history!*

International Hashing Reporting

Oslo hashers have participated in a variety of international hashing events around the world – including the InterHash, InterScandi, InterCaucus, InterAfrica, InterAmerica, various Nash Hashes, and many milestone hash celebrations! As part of their far-ranging travels, Oslo hashers have also hashed with other kennels, here and there. To once again encourage more contributions about such experiences, so the rest of us poor bastards can enjoy these Out-of-Oslo hashing adventures *vicariously*, *The Vicar* has submitted his account of the recent Interhash in Borneo! I also add an account about hashing with the Tallinn HHH while visiting with *Wipe It Off & Wet Pump* in Estonia last month!

I would like to encourage *Fucking Beep Beep*, *Beastality*, *Size Matters*, *Big Shaker*, *Double Dick*, *Dry Run*, and *AirHead* – **and any others** that have recently joined other hashing kennels for international hashing events – to write a short description of the fun, the setting, the hashing, etc and include a few photos for the reading-challenged! Thanks in advance!

Interhash 2010 - Kuching, Borneo

Eight Oslo hashers travelled to Malaysia for the 13th international Interhash in Kuching Borneo. We were part of some 5,000 other hashers who had gathered at the picturesque waterfront city to hash, socialise and party. The main weekend event was extended to include a Thursday Red Dress run which caused a stir through the city streets. The run was done in torrential rain with thousands of butch hashers with running mascara and red dye running down their faces and bodies.

Interhash photo #1

Interhash photo #2

Interhash photo #3

Photo #1 shows *Lita*, *The Vicar*, *Vodka Splite* and *Flying Chicken* suitably kitted out. The other Oslo hashers attending were *YooHoo*, *Aahlouetta*, *Madonna* and *Air Hansa*. The main event kicked off on Friday evening at the civic centre grounds. This was a great opportunity to meet people you haven't seen for ages and share many Tiger beers together. Saturday was the main event runs and despite the usual chaos surrounding the arrangements we managed to get ourselves onto a bus which transported us out to some nearby jungle for a 40 minute trot (without checks) through steamy, wet forest to emerge hot and sweaty for a few curry puffs, fruit and an impromptu circle which seemed to have no central organisation. There were some 18 runs (photo #2) to choose from ranging from a 22km Ball Breaker which consisted of scrambling up hills and sliding down the other side, there were cave runs with torches, most runs contained jungle and mud and of course some walks for the old farts.

After the runs and shower, it was back to the venue for food, drinks, party and Hash acts. After the venue closed, hashers would disperse to the many city bars to watch the World Cup or continue the partying till the early hours of the morning. On Sunday there was the same

Tallinn HHH # 466 - Tallinn, Estonia (27.07.2010)

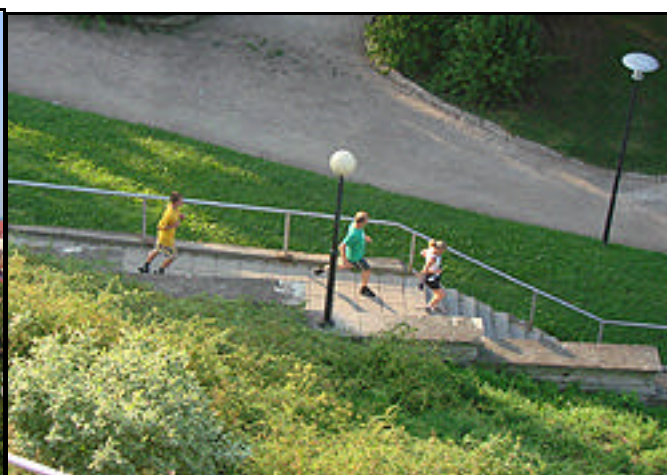

Oslo HHH Participants: *Daddy Long Legs & Midnight Sun & Wipe It Off*

Whenever you travel somewhere, whether for business or pleasure, you might have the opportunity to join a different hash group to experience another flavor in the deliciously decadent world of hashing, which is a truly global activity and fun wherever you find it! Many hashes have their own traditions and slightly different ways of marking trails, holding circles, giving out hash names, and absolutely ALL hashes welcome visiting hashers! Check it out!

The Tallinn H3 Grand Master, *Stains the Couch* was quick in responding to our initial query about joining # 466 on July 27th and we were pleased to learn later that the TH3 kennel would be running in Tallinn's Old City, which was very convenient for us! After a fantastic driving tour with *Wipe It Off & Wet Pump* to Viljandi and Haapsalu, we arrived to Tallinn with just enough time to check into our Old City hotel, change into our hash gear, and head for the venue! It is always a little disconcerting to arrive at a venue and not find any local hashers, but *Hooker Sniffer* arrived after a few minutes and informed us that the Tallinn H3 always started late so we felt at home. Soon after, the Tallinn GM, *Stains the Couch*; TH3 Beer Mester, *Swedish Tick*; Hares: *Spanish Fly* and soon-to-be-named *Nipples in the Mist*; plus a handful of others gathered to begin TH3 466! After a quick "chalk talk" explaining how the Old City trail was marked, we set out! We enjoyed a great hash through the Old City seeing views and classic passages we probably wouldn't have found on our own! The TH3 466 Old City hash was a lot of fun!!

One of many classic "Old City" views enjoyed on TH3 466!

Midnight Sun & Wipe It Off leading the TH3 pack!

Everyone we encountered was friendly and curious about what these noisy runners were doing! The route included a pay-as-you-go beer stop, but most of the local hashers didn't buy a beer so maybe the tourist prices were higher than we thought! Once back, the GM presided over a circle like a benevolent dictator, scolding everyone with a grin! It was good fun to join the TH3 circle and we offered some Ringnes beer from Norway, but the TH3 didn't seem overly impressed because they have so much great beer in Estonia! The GM "punished" everyone for one thing or another, welcomed a virgin, punished new shoes (yes, he drank from them!), gave the "Shitty Trail" song to the hares, and hashnamed the cohare *Nipples in the Mist*, which in Estonian was "Nibud Udus" !! There was no haberdashery to buy a shirt from and they didn't use mugs for down-downs, but they sang the usual songs with sincere enthusiasm! It's all good!

One of the most classic Art Nouveau building facades ever!

DLL thanks the Tallinn Hash for the great trail and friendly reception!

TH3 *GMStains The Couch* gives the OH3 visitors a song with a DD!

TH3 hashnaming of 466 cohare to "*Nipples In The Mist*" !!

Afterwards, some of us went to an Old City pub for some food and more beers. They were quite willing to show us other pubs, but we declined their generous offer. This is a young hash group, mostly local, but definitely worth joining when you visit Tallinn!! They run on Tuesdays at 1900 during the summer and on Sundays at 1300 during winter. With this fun TH3 group, Tallinn could be an ideal city to do a "Viking Invasion" to! Good beer, loads of history, and all at affordable prices! Check it out!

Cut out these OH3 business cards (lamine them if you have the means) and carry them with you so you can give them to the next potential hasher you meet. Why? Because new blood is always a good thing for any organization and face-to-face recruiting has been proven to be the most effective way to attract new hashers which makes the OH3 healthier today and guarantees the future of the Oslo H3! It's all good! **On! On!**

FINAL PRESS NEWS

If you have some ideas about how the Oslo Hash Trash can be better, more useful, or just more fun; **PLEASE** don't hesitate to share them with your humble OnSec. I might actually read them!
Confidentiality guaranteed!

AND...If you have some hash photos from recent or past Oslo HHH events or from other international hashing events you'd like to share, send them in!
